

GRAPHIC plc

Q009R-1

RoHS DECLARATION

The EU Directive on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment (RoHS2) imposes the following quantity limits. Electronic components must contain less than:

0.1% by mass of homogeneous material for lead, mercury, hexavalent chromium, polybrominated biphenyls, polybrominated diphenyl ethers and

0.01% by mass of homogeneous material for cadmium.

Graphic plc has obtained declarations from its suppliers and undertaken analysis of typical circuit boards to demonstrate compliance.

DECLARATION

All printed circuit boards supplied by Graphic plc that are not finished with tin/lead solder are RoHS compliant.

A handwritten signature in black ink, appearing to read 'Dave Pike'. The signature is fluid and cursive, with a long horizontal stroke at the end.
