## **REACH STATEMENT**

Graphic PLC's printed circuit boards are classed as articles and do not contain any substances that require registration under REACH.

The boards contain none of the 174 substances on the Candidate List of Substances of Very High Concern (updated 7<sup>th</sup> July 2017) above the concentration limit of 0.1% by weight. A statement to this effect appears on all quotations and certificates of conformity leaving Graphic.

A handwritten signature in black ink, appearing to read 'C Gould', is positioned below the text. The signature is fluid and cursive.

C Gould
